

## Consultation response

**Question 1: We would like to know in what context you are responding. Please choose one of the following:**

I am responding as:

- a) an individual who experiences chronic pain
- b) a family member or carer of someone who experiences chronic pain
- c) a health professional
- d) an organisation representing people who experience chronic pain
- e) other stakeholder (please tell us in the comments box below)

**Question 2: Please choose your preferred option (Chapter 2 provides details).**

- Option 1 – a centre of excellence in a single location
- Option 2 – a service delivered by local chronic pain clinicians  
(supported by other clinical advisors in another part of the country)
- Option 3 – a service delivered in different locations  
(by a team of chronic pain specialists – an outreach or roving service)

Please tell us why this is your preferred option in the comments box below. The factors listed in Chapter 2 of the consultation paper may help you.

a single location is preferred as if its split into three areas, then chronic pain could take a back seat to conditions, such as R.A., ME, MS, Trauma. There should already be some kind of shift specifically for the residential single location. Borrowing clinicians will mean different methods for different conditions. As for the different locations, the same could apply as before. Plus there is the problem of patients waiting times.

**Question 3: Are there any of the options you disagree with? (If No, move straight to Question 4.)**

**If yes, please tell us which one(s) in the comments box, and why?**

Both Option 2 + 3. Can or could be considered as a centre of excellence in other areas.
