

Consultation response: the provision of specialist residential chronic pain services in Scotland

Question 1: We would like to know in what context you are responding. Please choose one of the following:

I am responding as:

- a) an individual who experiences chronic pain
- b) a family member or carer of someone who experiences chronic pain
- c) a health professional
- d) an organisation representing people who experience chronic pain
- e) other stakeholder (please tell us in the comments box below)

Question 2: Please choose your preferred option (Chapter 2 provides details).

- Option 1 – a centre of excellence in a single location
- Option 2 – a service delivered by local chronic pain clinicians (supported by other clinical advisors in another part of the country)
- Option 3 – a service delivered in different locations (by a team of chronic pain specialists – an outreach or roving service)

Please tell us why this is your preferred option in the comments box below. The factors listed in Chapter 2 of the consultation paper may help you.

KEEPING IT TO THE ONE CENTRE HELPS KEEP THE STAFF FOCUSED ON CHRONIC PAIN. THE STAFF NEED TRAINED SPECIALLY AND EFFECTIVENESS MEASURED. THE ONE CENTRE WOULD BE EASIER FOR PATIENTS TO REACH AS THEY WONT BE PUSHED FROM ONE PLACE TO ANOTHER.

Question 3: Are there any of the options you disagree with? (If No, move straight to Question 4.)

If yes, please tell us which one(s) in the comments box, and why?

A SERVICE IN YOUR LOCAL AREA LEAD BY A CHIRITIAN AT THIS TIME AS NO ONE HAS BEEN TRAINED IN SCOTLAND. AT PRESENT, CHRONIC PAIN SERVICES IS RUN ON A PART-TIME BASIS RUN BY PROFESSIONALS THAT HAVE NEVER BEEN EVALUATED FOR THE PAIN POSTS IN HOSPITALS.

Question 4: If you have other ideas that have not been covered, please tell us about these in the comments box below. You may want to include the advantages and disadvantages of each.

DISADVANTAGE OF HAVING SEPARATE CLINICS RUN BY CHIRITIAN'S WOULD TEND TO LOOK AFTER SEPARATE ISSUES, I.E. ATHRITIS, ME, MS. SO AFTER A TIME THEY WILL BE KNOWN AS A ATHRITIS CLINIC.

Question 5: What do you think the barriers are to accessing a residential pain management service? (For example, distance away from family, work or family commitments, upfront travel costs.)

Please list as many as you wish in the comments box below and include any others that are important to you.

UPFRONT TRAVEL COSTS, AS FIRST MONEY
IS NOW A PROBLEM.

THOUGH ONE CENTRE WILL NOT SUIT
SOME, WE HAVE TO START SOMEWHERE.

Question 6: Please choose from the list below which aspects of residential pain management services should be included in a Scottish service.
