

Copies of all the written responses received to a consultation exercise (except those where the individual or organisation requested confidentiality) are placed in the Scottish Government library at Saughton House, Edinburgh (K Spur, Saughton House, Broomhouse Drive, Edinburgh, EH113XD, telephone 0131 244 4565).

All Scottish Government consultation papers and related publications (e.g. analysis of response reports) can be accessed at: Scottish Government consultations (<http://www.scotland.gov.uk/consultations>) The views and suggestions detailed in consultation responses are analysed and used as part of the decision making process, along with a range of other available information and evidence. Depending on the nature of the consultation exercise the responses received may: indicate the need for policy development or review; inform the development of a particular policy; help decisions to be made between alternative policy proposals; be used to finalise legislation before it is implemented. Final decisions on the issues under consideration will also take account of a range of other factors, including other available information and research evidence.

While details of particular circumstances described in a response to a consultation exercise may usefully inform the policy process, consultation exercises cannot address individual concerns and comments, which should be directed to the relevant public body.

CONSULTATION QUESTIONS

1. Do you support the development of an MPA network in Scotland's Seas?

Yes No

The protection of these sensitive and environmentally diverse areas is essential to the long-term health of the seas around Scotland

Individual possible Nature Conservation MPAs

2. Do you have any comments on the case for designation, management options and socioeconomic assessment for the *Clyde Sea Sill* possible Nature Conservation MPA?

Designation: Yes No

Comments

Management Options: Yes No

Comments

Socioeconomic Assessment: Yes No

Comments

All of the above: Yes No

Comments

3. Do you have any comments on the case for designation, management options and socioeconomic assessment for the *East Caithness Cliffs* possible Nature Conservation MPA?

Designation: Yes No

Comments

Management Options: Yes No

Comments

Socioeconomic Assessment: Yes No

Comments

24. Do you have any comments on the case for designation, management options and socioeconomic assessment for the *Turbot Bank* possible Nature Conservation MPA?

Designation: Yes No

Comments

Management Options: Yes No

Comments

Socioeconomic Assessment: Yes No

Comments

All of the above: Yes No

Comments

25. Do you have any comments on the case for designation, management options and socioeconomic assessment for the *Upper Loch Fyne and Loch Goil* possible Nature Conservation MPA?

Designation: Yes No

The Upper Loch Fyne area should be designated a Nature Conservation MPA due to the diversity of sealife , its unique water flows past the spit at Otter Ferry and to preserve the fish stocks from trawler fishing

Management Options: Yes No

The loch needs managed to ensure that the bio-diversity is firstly protected and secondly allowed to flourish. As an occasional angler on the loch the size and number of fish being caught has reduced over the past few years.

Socioeconomic Assessment: Yes No

The protection of the loch from commercial trawling would encourage visits by anglers and wildlife tourists to the area thereby improving the economic health of the loch side. This would allow longer term investment to be made in the infrastruture to support these visitors to the benefit of the local community.

All of the above: Yes No

Comments

26. Do you have any comments on the case for designation, management options and socioeconomic assessment for the *West Shetland Shelf (formerly Windsock)* possible Nature Conservation MPA?

Designation: Yes No

Choices to represent features in the MPA Network

28. Recognising the scientific advice from JNCC included alternatives for representing offshore subtidal sands and gravels, ocean quahog and shelf banks and mounds in the Southern North Sea, do you have a preference or comments on the following combinations to represent these features, bearing in mind Turbot Bank will need to be designated to represent sandeel in this region:

- Firth of Forth Banks Complex
- Turbot bank and Norwegian Boundary Sedimentary Plain
- Or Firth of Forth Banks Complex, Turbot bank and Norwegian Boundary Sedimentary Plain

Comments

29. Do you have any comments on the case for designation, management options and socioeconomic assessments for the preference you have indicated in the question above, regarding alternatives for representing offshore subtidal sands and gravels, ocean quahog and shelf banks and mounds in the Southern North Sea?

Yes No

Comments

30. Recognising the scientific advice from JNCC included alternatives for representing the burrowed mud feature in the Fladens, do you have a preference or comments on the following combinations to represent these features, bearing in mind the part of Central Fladen (known as Central Fladen (Core)) containing tall seapen (*Funiculina quadrangularis*) will need to be designated to represent tall seapen in this region:

- Central Fladen pMPA only
- The tall sea-pen component of Central Fladen, plus Western Fladen
- Or the tall sea-pen component of Central Fladen, plus South-East Fladen.

Comments

31. Do you have any comments on the case for designation, management options and socioeconomic assessments for the preference you have indicated in the question above, regarding alternatives for representing the burrowed mud feature in the Fladens?

Yes No

Comments

32. Recognising the scientific advice from JNCC included alternatives for representing offshore subtidal sands and gravels, offshore deep sea mud, and burrowed mud in OSPAR Regions III and V, do you have a preference or comments on the following combinations to represent these features:

South-West Sula Sgeir and Hebridean slope
Or Geikie slide and Hebridean slope

Comments

33. Do you have any comments on the case for designation, management options and socioeconomic assessments for the preference you have indicated in the question above, regarding alternatives for representing offshore subtidal sands and gravels, offshore deep sea mud, and burrowed mud in OSPAR Regions III and V?

Yes No

Comments

Sustainability Appraisal

34. Do you have any comments on the Sustainability Appraisal of the MPA network as a whole?

Yes No

The document details a large number of MPAs and this raises a concern about how effectively they could all be monitored when increasing the number of sites so quickly.

Final Thoughts

35. On the basis of your preferences on which pMPAs should be designated, do you view this to form a complete or ecologically coherent network, subject to the completion and recommendations of SNH's further work on the 4 remaining search locations?

Yes No

Comments

36. Do you have any other comments on the case for designation, management options, environmental or socioeconomic assessments of the pMPAs, or the network as a whole?

Yes No

Comments
