As a Countryside Management student and conservationist I feel very strongly about protecting Scotland's wonderful wildlife whether at sea or on land.

I believe that we have a moral duty to protect the environment but also know that this will be beneficial in bringing social and economic benefits. I have been lucky this year to have spent 2 weeks on Handa Island, visited the Isle of May, Bass Rock, and spent time on Mull and on boats off the west coast.

I have seen the joy these areas and their wildlife have brought to people and also witnessed the income derived from tourists. I have included my responses to specific questions below.

Mark Johnston
