

MPA Network Consultation
 Scottish Government
 Marine Planning and Policy Division
 Area 1-A South
 Victoria Quay
 Edinburgh
 EH6 6QQ

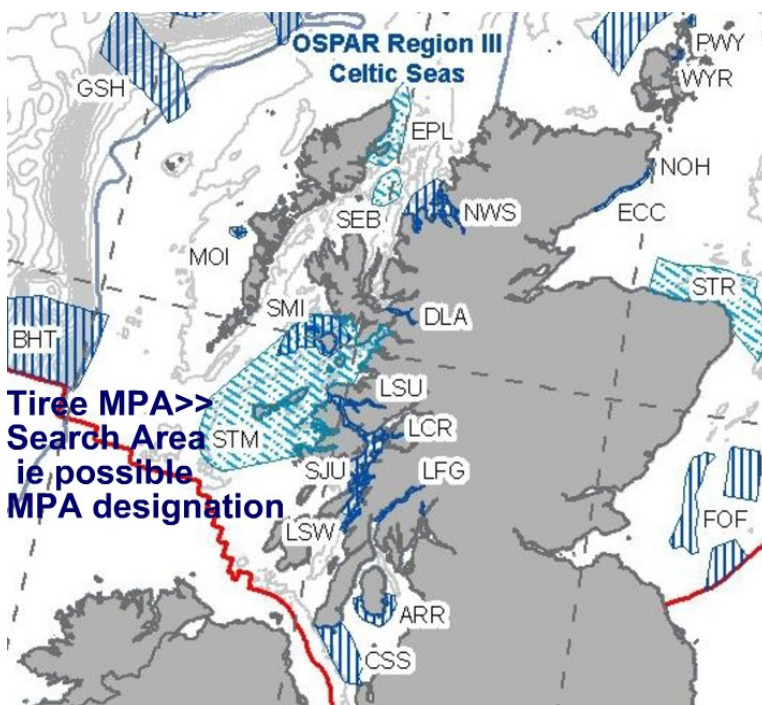

13/11/2013

To whom it may concern.

I am writing in response to the Scottish Government consultation on Possible Nature Conservation Marine Protected Areas. From Scotland's Marine Atlas it is clear that the seas around Scotland are in turmoil, with concerns and declines over most of the seabed, declines in common seals, seabirds and sharks, skates and rays, and ongoing concerns with fish stocks in many areas. Within a system that puts the marine environment at the centre of marine planning, I believe a network of well-managed Marine Protected Areas is essential to help reverse these historic declines and enhance the many important benefits the sea provides us all.

I firmly support the development of an MPA network in Scotland's seas.

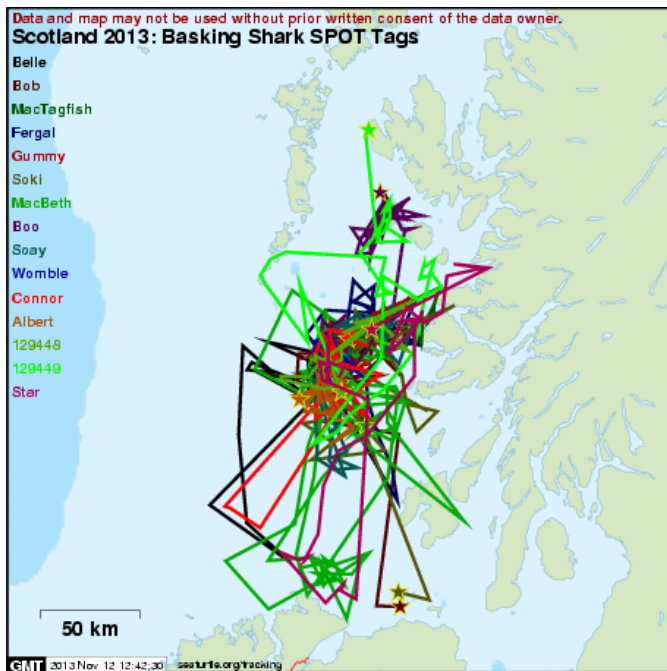

Not only would I wish all the proposed MPA sites be adopted by Scottish Government, I specifically wish the [Skye-Mull search area including Tiree](#) (as below) to be designated as a nature conservation Marine Protected Area by Scottish Government.

The Scottish Government has a legal obligation to enhance Scotland's seas and, according to international recommendations, the MPA network must support the wider marine environment. For each MPA, effective management must therefore be in place so that species and habitat recovery is possible both within and beyond the boundaries of the site. Zonal management that protects only the remnant extent of marine species and habitats, particularly of vulnerable benthic features, is not enough given the context of ecological decline documented in Scotland's Marine Atlas.

The [Skye-Mull search area including Tiree](#) is designated a **BASKING SHARK HOT-SPOT**.

The current SNH Tagging project results, as of 12 Nov(above), confirm this designation.

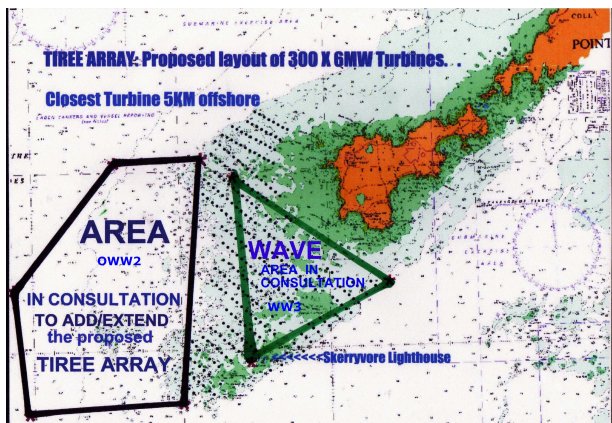

In the UK, Basking Sharks are protected under Schedule 5 of the Wildlife and Countryside Act 1981, the Countryside Rights of Way Act 2000, the Wildlife (Northern Ireland) Order 1985 and the Nature Conservation (Scotland) Act 2004. These Acts make it illegal to intentionally kill, injure or recklessly disturb or harass Basking Sharks in British waters. Any person committing such an offence could face up to six months in prison and a large fine.

Also:-

In 2007 Basking Sharks were designated a Prohibited Species under the EU CFP

The critical requirement for the [Skye-Mull search area\(including Tiree\)](#) to be designated a MPA, is to ensure Scottish Government's abides by, and fulfills its legal obligations, as above, with regard to any possible adoption/consent of proposed offshore wind farm development(s), within this MPA search area.

I am replying as an individual and am happy for my response and name to be published on the Scottish Government website, but not my address.

I understand that my name and address are required to identify me as an individual, so that my response can be included in the consultation analysis.

I am content for the Scottish Government to contact me again in relation to this consultation exercise.

Yours faithfully

Robert Trythall

CONSULTATION QUESTIONS

1. Do you support the development of an MPA network in Scotland's Seas?

Yes X No

Choices to represent features in the MPA Network

28. Recognising the scientific advice from JNCC included alternatives for representing offshore subtidal sands and gravels, ocean quahog and shelf banks and mounds in the Southern North Sea, do you have a preference or comments on the following combinations to represent these features, bearing in mind Turbot Bank will need to be designated to represent sandeel in this region:

- Firth of Forth Banks Complex
- Turbot bank and Norwegian Boundary Sedimentary Plain
- Or Firth of Forth Banks Complex, Turbot bank and Norwegian Boundary Sedimentary Plain

Comments

29. Do you have any comments on the case for designation, management options and socioeconomic assessments for the preference you have indicated in the question above, regarding alternatives for representing offshore subtidal sands and gravels, ocean quahog and shelf banks and mounds in the Southern North Sea?

Yes No

Comments

30. Recognising the scientific advice from JNCC included alternatives for representing the burrowed mud feature in the Fladens, do you have a preference or comments on the following combinations to represent these features, bearing in mind the part of Central Fladen (known as Central Fladen (Core)) containing tall seapen (*Funiculina quadrangularis*) will need to be designated to represent tall seapen in this region:

- Central Fladen pMPA only
- The tall sea-pen component of Central Fladen, plus Western Fladen
- Or the tall sea-pen component of Central Fladen, plus South-East Fladen.

Comments

31. Do you have any comments on the case for designation, management options and socioeconomic assessments for the preference you have indicated in the question above, regarding alternatives for representing the burrowed mud feature in the Fladens?

Yes No

Comments

32. Recognising the scientific advice from JNCC included alternatives for representing offshore subtidal sands and gravels, offshore deep sea mud, and burrowed mud in OSPAR Regions III and V, do you have a preference or comments on the following combinations to represent these features:

South-West Sula Sgeir and Hebridean slope
Or Geikie slide and Hebridean slope

Comments

33. Do you have any comments on the case for designation, management options and socioeconomic assessments for the preference you have indicated in the question above, regarding alternatives for representing offshore subtidal sands and gravels, offshore deep sea mud, and burrowed mud in OSPAR Regions III and V?

Yes No

Comments

Sustainability Appraisal

34. Do you have any comments on the Sustainability Appraisal of the MPA network as a whole?

Yes No

Comments

Final Thoughts

35. On the basis of your preferences on which pMPAs should be designated, do you view this to form a complete or ecologically coherent network, subject to the completion and recommendations of SNH's further work on the 4 remaining search locations?

Yes No

NO, because this consultation response form does not include the SKYE- MULL search Area .This response form is deficient

36. Do you have any other comments on the case for designation, management options, environmental or socioeconomic assessments of the pMPAs, or the network as a whole?

Yes No
