

<b><u>Question</u></b>	<b><u>Answer</u></b>
Do you support the development of an MPA network in Scotland's Seas?	Yes
Designation	The area needs to be all around the Island of Arran.
Management Options	Nothing should be allowed to damage the sea bed within the protected area.
Socioeconomic Assessment:	I eat fish. I therefore need Fishermen. They have been on an extinction line since before the war. They fight against all measures designed to secure their living. It is time common sense prevailed.
Other Comments	Fishermen wiped out the Loch Fyne herring; boats full sinking because of minimal freeboard. They have eradicated fish from the firth of Clyde, and still they wish to smash on in self destruct mode. Can our Government show that they have a few more grey cells than our Fishermen?
Organisation	
Full Name	Leigh Hocking
