

<u>Question</u>	<u>Answer</u>
Do you support the development of an MPA network in Scotland's Seas?	Yes
Designation	I agree with the south Arran MPA but also believe that the re-introduction of a three mile limit on mobile gear would benefit the whole of Scotland.
Management Options	I support COASTs management proposals, as SNHs proposals are unworkable in regards to both compliance & recovery of the wider environment.
Socioeconomic Assessment:	I have been a regular visitor to Arran for over 12 years. I am an experienced diver & keen angler but unfortunately with diminishing fish stocks there I spend less and less time visiting Arran. I now regularly dive and fish abroad especially Norway which has excellent sea angling & diving and unaffected by bottom dredging.
Other Comments	Why should it be that I have to leave my native shores to fish and dive abroad because of bad marine management
Organisation	
Full Name	Lisa Law
