

2013 Datazone Redraw Consultation

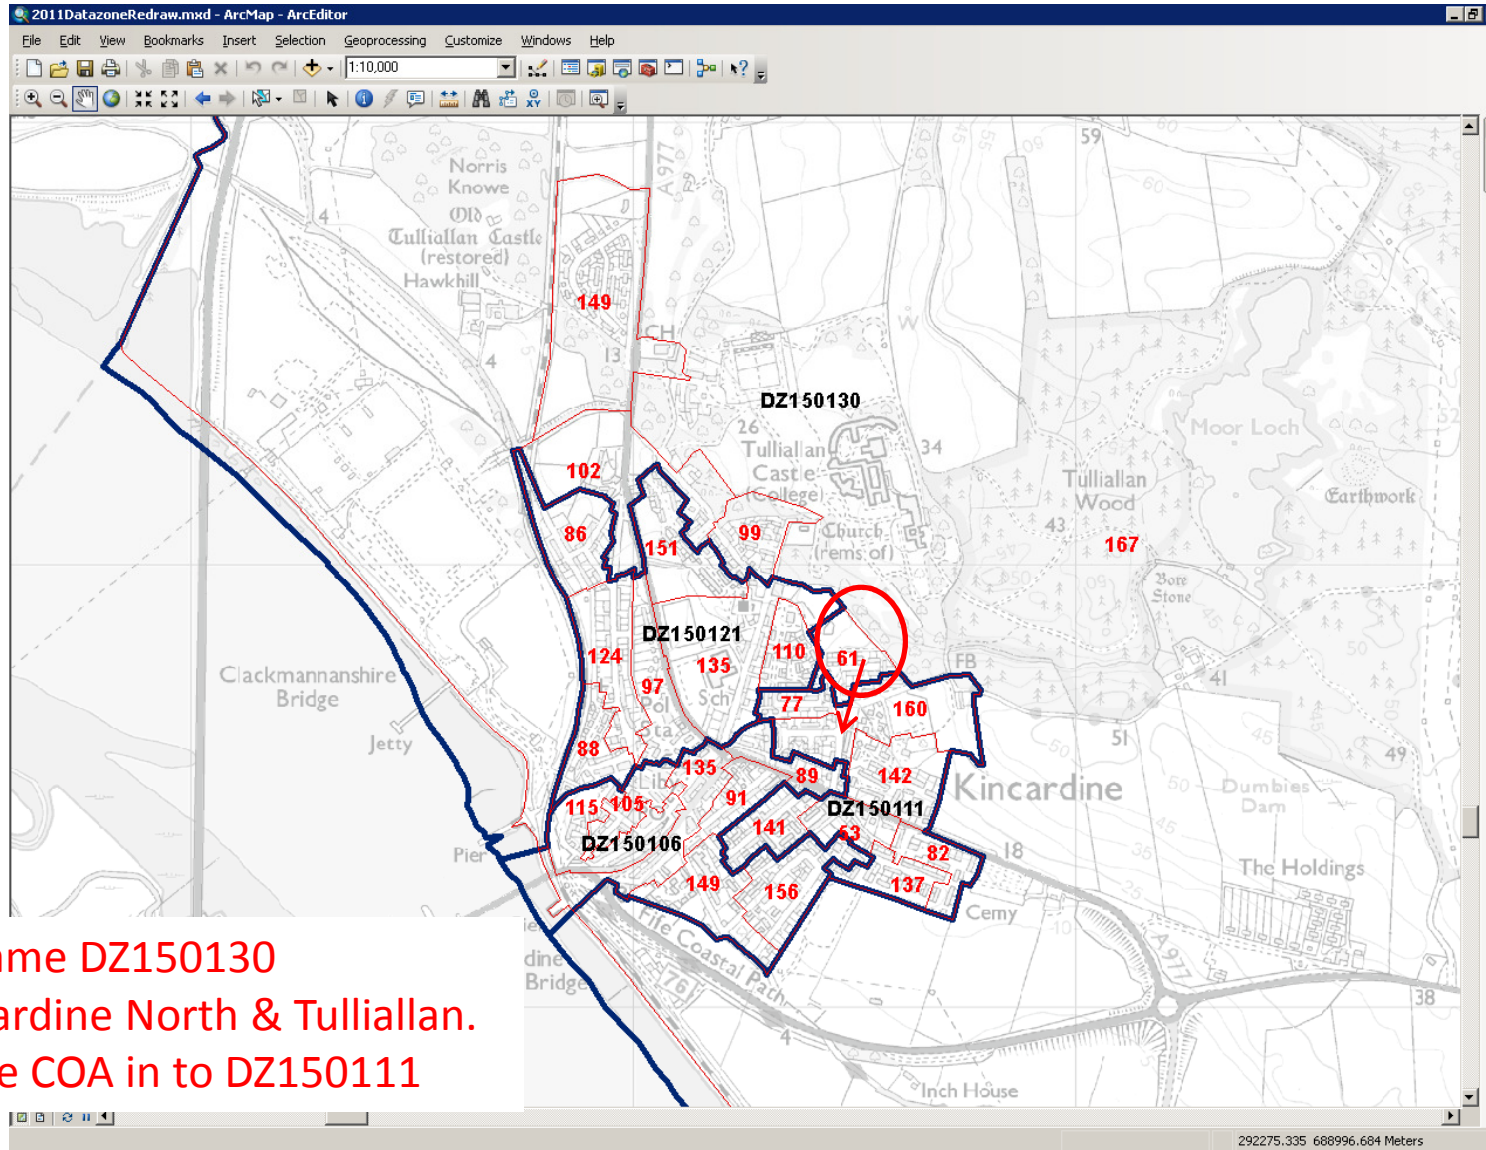

Fife Council and NHS Fife Response

Annotated maps for selected Fife datazones and interzones
that set out the rationale for changes to proposals

2011 Datazones

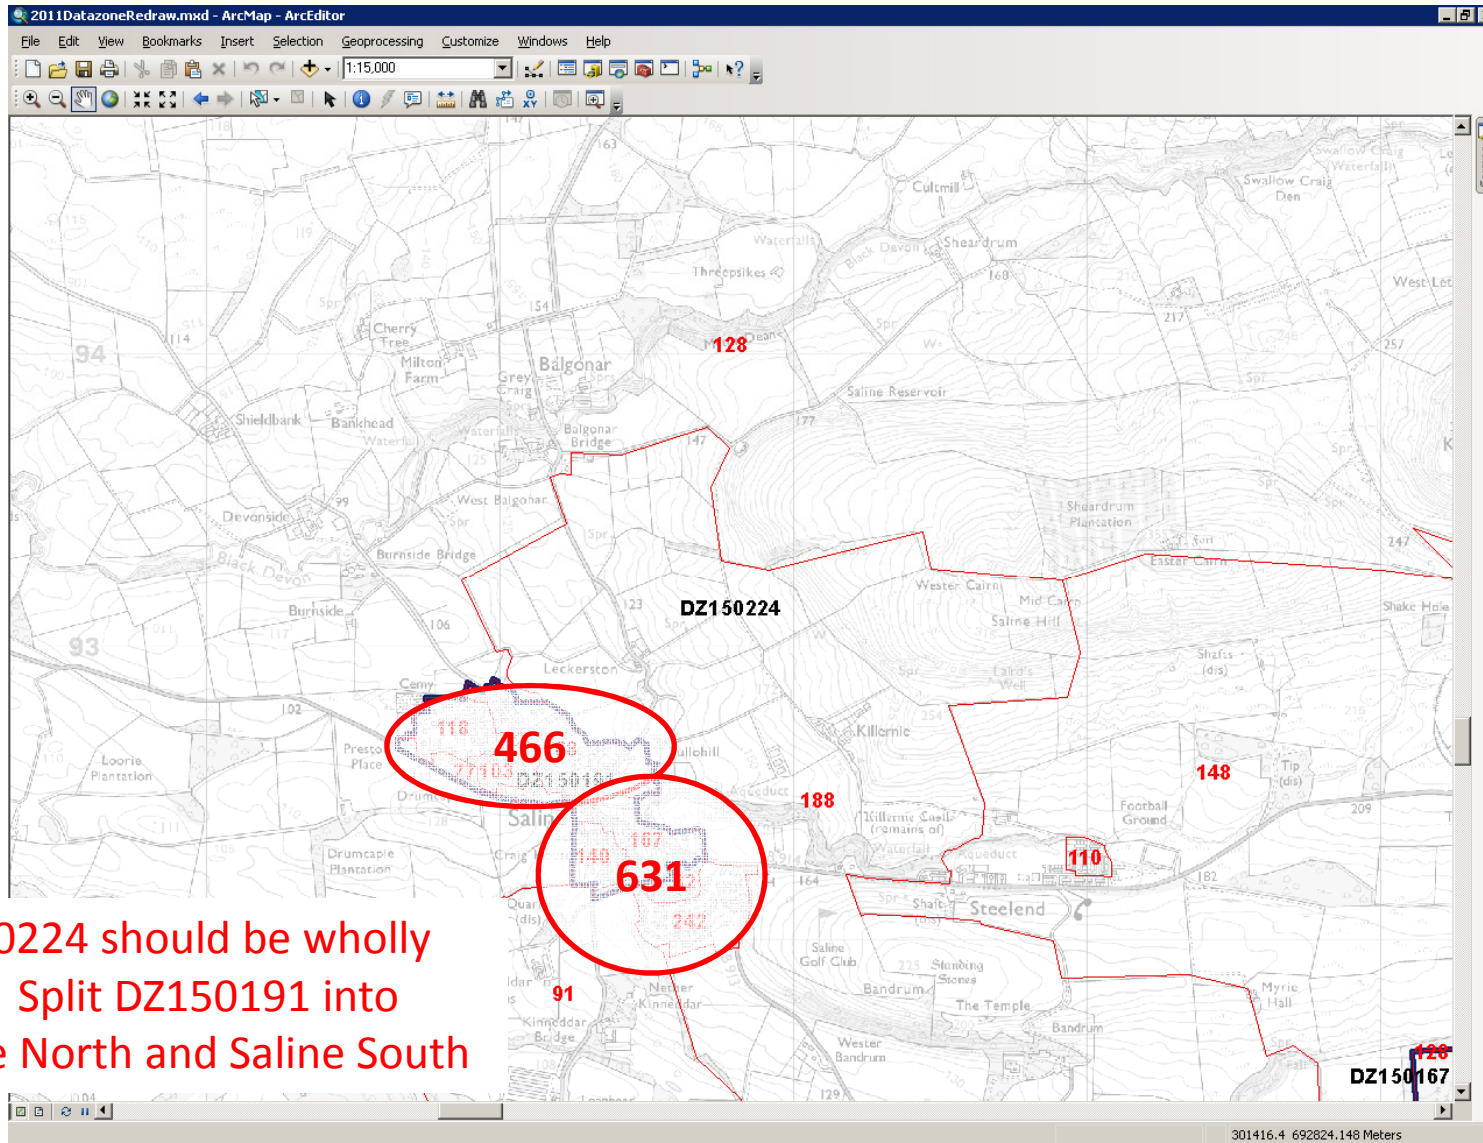

- Proposals for splitting datazones are broadly in line with 2010 recommendations
- However, there are a number of datazones where Fife would propose:
 - A different configuration of Census Output Areas to form the new datazones.
 - A number of further splits to take account of planned/committed housebuilding
 - A minor change to external boundary of selected datazones to form meaningful local neighbourhoods.

Implications of Redraw for Interzones

- Greatest datazone drift in S02000493
Dunfermline East & Pitcorthie East
- Recommend split to form 4 new interzones
 - Dunfermline Pitcorthie East (3,461)
 - Dunfermline Masterton (2,122)
 - Dunfermline Duloch South (4,232)
 - Dunfermline Duloch North and Lynebank (3,123)
- Proposed datazones also affect the integrity of a number of other Fife interzones
