Table A1.2: Question 1 – Offline responses only

This table presents quantitative results on the attitudes towards HPMA's expressed by respondents who submitted email or postal responses. A separate field in the database was created to record the overall attitudes of these respondents towards HPMA's – based on the comments in their messages. A 4-point scale was used: (i) Support, (ii) Neutral, (iii) Oppose, and (iv) Unclear or mixed views.
