HL3 Data Collection

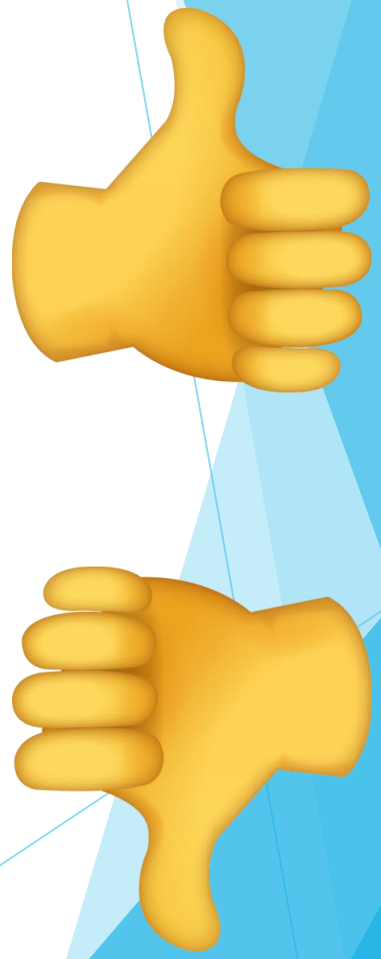
(it’s finally published!)

- Data Quality
- Overview of published data
- Group Discussion on future data analysis

Data Quality

- **2017/18**
  - 262 (2%) difference between HL3 and HL2
  - largely known reasons for the differences
  - 2% of HL3 cases were not matched to HL1

- **Q1 & Q2 2018/19**
  - 936 (9%) difference between HL3 and HL2
  - some known reasons for the differences
  - 1% of HL3 cases were not matched to HL1



Overview of published data

- Numbers of households - entering and exiting
  - by household type
  - by accommodation type
- Number of placements per household
- Total duration in temporary accommodation
  - by household type
- Duration in temporary accommodation (within each placement)
  - by household type
  - by accommodation type
- Local authority variation in placement duration
- Applications in which temporary accommodation was not offered
- Breaches of the Unsuitable Accommodation Order

Over to you!

HL3 Group Discussion

- Overall, what did you think of the presentation of HL3 data in the annual Homelessness publication, published June 2018 (see handouts)
- Are there any topics, graphs or tables that you think we should get rid of?
- Do you think the presentation of both HL2 and HL3 data is confusing?
- Bearing in mind that we can link to HL1 data, are there any other breakdowns of the data that you think would be useful to present?
