## NON-DOMESTIC RATES REVALUATION APPEALS STATISTICS, SCOTLAND, 2021-22 QUARTER 1

## Context

Non-Domestic Rates (NDR) in Scotland are based on the rateable value (RV) of individual non-domestic properties. Periodically there is a statutory revaluation process which revises RVs, and the revaluation appeals process allows proprietors, tenants or occupiers of non-domestic properties to appeal against these.

This routine publication provides quarterly statistics on the progress and results of revaluation appeals following the 2017 Revaluation (effective 1 April 2017) and the 2010 Revaluation (effective 1 April 2010). Running Roll appeals (i.e. those due to a material change of circumstances or a change in occupier) are not included in these statistics.

Further information on NDR can be found in the background notes.

The deadline for lodging appeals against the 2017 revaluation was 30 September 2017 (although if the valuation notice was issued after 1 April 2017, then the deadline is instead six months from that issue date).

This publication reports progress as at the end of June 2021 on the number of properties and RV appealed at the 2017 Revaluation. Progress on appeals lodged in the 2010 revaluation cycle is still being monitored and is also reported.

## **Key points**

#### (as at 30 June 2021)

- To 30 June 2021, a total of 68,909 appeals against the 2017 Revaluation, with an original rateable value (RV) of £4,350m have been resolved. This represents 93% of the 73,903 appealed properties and 81% of the £5,394m appealed RV.
- A total of 4,994 appeals against the 2017 Revaluation are still outstanding, representing £1,044m of appealed RV.
- Just under 70% of appeals resolved to date (47,357) did not result in any change in RV. However, while only 31% of appeals resolved to date have resulted in a change in RV, these appeals accounted for 60% of the appealed RV that has been resolved so far. The RV decrease to date of £301m is associated with 21,552 resolved appeals.
- Comparing data from the 2010 and 2017 Revaluations, four years after the beginning of the revaluation cycle, the proportion of appeals resolved in the 2017 revaluation cycle was lower than the proportion of appeals resolved by the same time in the previous cycle (93% in the 2017 cycle compared to 99% in the 2010 cycle). The proportion of RV resolved at this stage in the current cycle was also lower than that in the previous cycle (81% in the 2017 cycle compared to 92% in the 2010 cycle). At the end of 2019-20¹, there was little difference between these figures. The differences that have arisen since then are largely the result of a reduced number of appeals being resolved in the last four quarters as a result of the COVID-19 pandemic.
- Progress on the resolution of appeals for the 2010 revaluation cycle continues to be monitored. As at 30 June 2021, revaluation appeals had been resolved for over 99% of appealed properties (66,950 of 67,026).
- As a result of appeals against the 2010 Revaluation, the RV of properties for which the appeal has been resolved has been reduced by £267m, which is in line with the forecast of appeals loss relating to the 2010 cycle. Larger, more complex cases tend to be the appeals which are resolved the latest.
- There is still £27m of outstanding RV under appeal against the 2010 Revaluation, relating to 76 properties. The majority of these are telecommunications appeals, and most have been referred to the Lands Tribunal for Scotland.

# Comparison of 2010 and 2017 revaluation appeals

Figure 1 and Table 1 show a comparison of revaluation appeals at the end of Quarter 17 for the 2010 and 2017 revaluation cycles (four years and three months after revaluation). The table shows that the proportion of properties for which an appeal was made was similar in both revaluation cycles, with 31% of all properties appealed in the 2010 cycle compared to 32% in the 2017 cycle. However, the overall number of properties appealed in the 2017 cycle was around 10% higher.

A similar proportion of the total RV on the Valuation Roll was appealed: in the 2010 revaluation cycle 75% of RV was appealed compared to 73% in the 2017 revaluation cycle. The proportion of appealed RV resolved by the end of Quarter 17 in the 2017 cycle (81%) is lower than that resolved by the end of Quarter 17 in the 2010 cycle (92%). The proportion of properties for which an appeal was resolved by the end of Quarter 17 in the 2017 cycle (93%) is also lower than in the 2010 cycle (99%).

Table 2 and Figure 2 show the proportion of appeals resolved in different revaluation cycles over time. Table 3 and Figure 3 show the proportion of RV resolved over time. These figures illustrate how the rates of resolution over time vary across the 2010 and 2017 revaluation cycles.

At the end of the 12<sup>th</sup> quarter of the 2017 revaluation cycle (as reported in May 2020), the proportion of appeals resolved, and the proportion of the appealed RV resolved, were similar to those figures at the end of the 12<sup>th</sup> quarter of the 2010 revaluation cycle, as shown in Figures 2 and 3. These figures show a clear divergence starting in the 13<sup>th</sup> quarter, with lower proportions of appeals and appealed RV being resolved than in the 13<sup>th</sup> quarter of the 2010 cycle. This is due to the severely restricted capacity of the parties to an appeal to carry out negotiations, site visits, etc., and of Valuation Appeal Committees to meet in person during the COVID-19 pandemic, as well as the reprioritisation of staff in certain assessors' offices to support local authorities in processing applications for COVID-19 business support grants at the start of the pandemic.

	Q4	94.5%	

**Note:** Since Q1 of Year 1 ended before any of the statutory appeal disposal deadlines, figures for Q1 of Year 1 have been excluded. The current percentage of appealed RV for which appeals have been disposed of in the 2010 cycle can be found in Table 8.

## 2017 revaluation cycle

Table 4 shows that out of the 73,903 appeals lodged, 68,909 were resolved by the end of the fourth year following revaluation, accounting for £4,350m of the appealed RV.

Table 4: 2017 Revaluation appeals resolved by 30 June 2021

	Appealed	Resolved	Percentage resolved
Number of properties	73,903	68,909	93%
Rateable Value	£5,394m	£4,350m	81%

Table 5 shows that to date a large proportion of resolved appeals (47,357, or 69% of resolved appeals), accounting for £1,742m of appealed RV, resulted in no change in RV upon the appeal being resolved. The remaining resolved appeals to date (21,552), accounting for £2,609m of appealed RV, were resolved with a reduction in RV of £301m in total. Although only 31% of resolved appeals resulted in a reduction in RV, these appeals accounted for 60% of appealed RV that has been resolved.

Table 5: 2017 Revaluation appeals resolved, in total and with RV reduction, by 30 June 2021

	Number of properties	Original rateable value	Revised rateable value	Change in rateable value
All appeals	73,903	£5,394m	£5,093m	£301m
All resolved appeals:	68,909	£4,350m	£4,049m	£301m
of which resulted in no RV reduction	47,357	£1,742m	£1,742m	£0m
of which resulted in RV reduction	21,552	£2,609m	£2,308m	£301m
% resolved resulting in RV change	31%	60%		

Figure 4 shows the progress of appeal resolution in the 2017 revaluation cycle. Tables 6 and 7 provide a breakdown of appealed properties and RV by local authority and Valuation Joint Board (VJB). Map 1 shows the proportion of 2017 revaluation appeals resolved by VJB.

Note: Figures are rounded to the nearest percentage point. Specific VJBs have responsibility for specific designated utilities: Electricity (Lanarkshire); Gas (Dunbartonshire & Argyll & Bute); Water (Fife); Docks and Harbours (Central); Railways (Highland & Western Isles); and Telecommunications (Renfrewshire).

## 2010 revaluation cycle

Progress on the resolution of appeals for the 2010 revaluation cycle continues to be monitored. As shown in Table 8, 66,950 properties have had their appeals resolved for the 2010 revaluation cycle, 99.9% of the total number of properties for which appeals were lodged. These appeals account for 99.5% of the total appealed RV.

Figure 5 shows the ongoing progress made in the 2010 cycle. As at 30 June 2021, £4,919m of RV had been resolved, resulting in a revised RV of £4,652m and a reduction in RV of £267m. This accounts for around 4% of the total RV on the Valuation Roll as at 1 April 2010 in line with the forecast of appeals losses for the 2010 revaluation cycle. There is still £27m of outstanding appealed RV to be resolved, relating to 76 subjects.

Table 8: 2010 Revaluation appeals resolved by 30 June 2021

	Appealed	Resolved	Percentage resolved
Number of properties	67,026	66,950	99.9%
Rateable Value	£4,946m	£4,919m	99.5%

Figure 5: 2010 Revaluation Appeals resolved by 30 June 2021

Table 9 provides a breakdown of appeals resolved by local authority and VJB.

## **Background notes**

#### **Data Sources**

The data in this publication are derived from the RVAPP (Rateable Value Appeals) statistical return which the Scottish Assessors provide to the Scottish Government on a quarterly basis. The continued co-operation of the Scottish Assessors in completing these returns is gratefully acknowledged.

#### **Definitions**

NDR are a property-based tax. They are based on the RV of a non-domestic property, multiplied by a poundage set nationally by Scottish Ministers (49p in 2021-22 for properties of rateable value up to £51,000), less any relief to which a ratepayer may be eligible. Note that for properties of rateable value over £51,000 and up to £95,000 the Intermediate Property Rate (1.3p on top of the poundage) applies, and for those with a rateable value over £95,000 the Higher Property Rate (2.6p on top of the poundage) applies.

For example, if a non-domestic property has a rateable value of £20,000, and the poundage is 49p (2021-22 level), the annual gross bill (before reliefs) would be:

```
Non-Domestic\ Rates\ bill = £20,000*0.49 = £9,800 (before any reliefs)
```

If a non-domestic property has a rateable value of £60,000 then in 2021-22 the annual gross bill (before reliefs) would be:

```
Non - Domestic \ Rates = £60,000 * (0.49 + 0.013) = £30,180 (before any reliefs)
```

For a non-domestic property that has a rateable value of £100,000, in 2021-22 the annual gross bill would be:

```
Non - Domestic \ Rates = £100,000 * (0.49 + 0.026) = £51,600 (before any reliefs)
```

Revaluations are carried out by independent Assessors. The poundage is adjusted at each revaluation, to ensure that they are broadly revenue-neutral to the Scottish Government.

#### **Further Information**

More information on Non-Domestic Rates, including appeals procedures and reliefs, can be found on the Scottish Government's website: <a href="https://www.gov.scot/policies/local-government/non-domestic-rates/">https://www.gov.scot/policies/local-government/non-domestic-rates/</a>

### An Official Statistics publication for Scotland

Official and National Statistics are produced to high professional standards set out in the Code of Practice for Official Statistics. Both undergo regular quality assurance reviews to ensure that they meet customer needs and are produced free from any political interference.

#### **Correspondence and enquiries**

For enquiries about this publication please contact:

e-mail: lgfstats@gov.scot

For general enquiries about Scottish Government statistics please contact:

Office of the Chief Statistician, Telephone: 0131 244 0442,

e-mail: ChiefStatistician@gov.scot

How to access background or source data
The data collected for this statistical bulletin:
☐ are available in more detail through Scottish Neighbourhood Statistics
☐ are available via an alternative route
□ cannot be made available by Scottish Government for further analysis as Scottish Government is not the data controller.

#### **Complaints and suggestions**

If you are not satisfied with our service or have any comments or suggestions, please write to the Chief Statistician, 3WR, St Andrews House, Edinburgh, EH1 3DG, Telephone: 0131 244 0302, e-mail <a href="mailto:ChiefStatistician@gov.scot">ChiefStatistician@gov.scot</a>.

If you would like to be consulted about statistical collections or receive notification of publications, please register your interest at <a href="https://www.gov.scot/scotstat">www.gov.scot/scotstat</a>.

Details of forthcoming publications can be found at www.gov.scot/statistics.
