FOREWORD

Fish Landed. The total quantity of wet fish landed in Scotland by British vessels during the year was 5,190,823 cwt. valued at £13,793,598 compared with 6,064,508 cwt. valued at £14,502,071 in 1959. The quantity of shell fish landed was 141,634 cwt. valued at £951,069 compared with 134,263 cwt. valued at £808,568 in 1959. In addition 240,410 cwt. of wet fish valued at £697,890 and 265 cwt. of shell fish, valued at £1,453 were landed by Belgian, Danish, Dutch, Faroese, German, Icelandic, Irish Republican, Norwegian and Swedish fishing vessels as against 116,679 cwt. of wet fish and 697 cwt. of shell fish valued at £378,498 and £4,544 respectively in 1959, making a grand total of 5,431,233 cwt. of wet fish valued at £14,491,488 (1959, 6,181,187 cwt. valued at £14,880,569) and 141,899 cwt. of shell fish valued at £952,522 (1959, 134,960 cwt. valued at £813,112). Herring landed by British vessels amounted to 1,762,058 cwt. valued at £1,881,496 as against 2,218,111 cwt. and £2,168,516 in 1959, and demersal fish landed by British vessels amounted to 3,367,157 cwt. valued at £11,839,608 compared with 3,692,609 cwt. valued at £12,215,777 in the previous year. Foreign fishing vessels landed 59,893 cwt. of herring compared with 8,274 cwt. in 1959, and 170,795 cwt. of demersal fish compared with 102,801 cwt. in 1959.

Fish cured. The total quantity of herring cured, kippered, etc. amounted to 203,809 barrels (of which 135,139 were kippered and 35,792 pickle cured) valued after cure at £2,391,443 compared with a total of 260,191 barrels valued at £3,002,237 in 1959. Of other kinds of fish the quantity cured, chiefly by smoking or canning, amounted after cure to 205,637 cwt. valued at £1,909,373 as against 223,528 cwt. and £1,654,579 in 1959.

Fishing fleet. The Scottish fishing fleet at 30th November, 1960 comprised 49 steam trawlers, 111 motor trawlers, 2,854 other motor vessels and 107 sail vessels, a total of 3,121 vessels compared with 3,136 vessels in 1959.

Fishermen. The number of Scottish fishermen at 30th November, 1960, was 11,246 of whom 2,451 (including 1,267 crofter fishermen) were only partially employed in fishing. The total number of fishermen at the same date in 1959 was 11,509 of whom 2,704 (including 1,492 crofter fishermen) were only partially employed in fishing.

United Kingdom Statistics. For convenient reference United Kingdom statistics are included in this issue of the Scottish Sea Fisheries Statistical Tables. These statistics appear in Table I. Statistics in all the other Tables relate solely to Scotland.

St. Andrew's House,
Edinburgh, I.
2nd June, 1961.

26.	Herring fishing: Greatest number of vessels and persons employed in each district in any week	42
Creek return		
27.	Number of vessels and fishermen and quantity and value of fish landed	43

EXPLANATORY NOTES

Trawling for Norway Lobsters

On 1st October 1958, it became legal to use beam or otter trawls for the capture of Norway lobsters (*nephrops norvegicus*) in certain limits of the Firth of Forth during the period from 1st October in any year to 30th April in the immediately following year. The results of this fishing are included in Table 15.

Crabs, Lobsters and Oysters

From 1st January 1958, the landings of crabs, lobsters and oysters have been recorded in cwts. instead of numbers as previously.

Classification of squids

In the tables for 1954 and earlier years, squids were classified as demersal fish. It was decided in view of the zoological classification of squids as members of the mollusc group that it was more appropriate for statistical purposes to classify them as shell fish. Effect has been given to that decision in the tables from 1955.

Symbols used in the tables

The following symbols are used in the tables:—

- .. = not available.
- = nil or less than half of one unit.

Fishery Districts

The Fishery Districts of Orkney and Shetland were combined early in 1960 to form the Lerwick District. The Fishery District of Loch Broom has been re-named Ullapool District.

* Figures for pickled cured herring (gutted and ungutted) are of barrels "bungpacked", i.e. as finally packed.

† The figures represent fresh herring processed on basis of 1 cran = 1 barrel.

‡ The values shown are the values after cure.

DIGEST OF SCOTTISH STATISTICS

No. 16 - April 1961

Price 5s. per copy

(by post 5s. 6d.)

THIS 48 page Digest is prepared half-yearly by the Scottish Statistical Office, St. Andrew's House, Edinburgh, in collaboration with the Statistics Divisions of Government Departments. Apart from the more obvious statistics it includes information on capital expenditure and cost and proceeds of the nationalised fuel industries, road and canal transport, local authorities' income and expenditure, inland revenue duties, civil and licensing courts and the weather.

The wide scope of the Digest makes it of value to industrialists, business executives, economists, journalists and all who are interested in the social economy of Scotland. A feature of the Digest is the quarterly Index of Industrial Production giving a measure of the changes since 1948 in the volume of output of a wide range of Scottish industries.

The statistical information is arranged under the following headings.

INDUSTRIAL ACTIVITY

including Coal, Coke and gas production; electricity generation; value of agricultural output, landings and prices of fish.

TRANSPORT AND COMMUNICATIONS

including shipping, railways, roads, aviation and postal, telegraph and telephone services.

LABOUR

including manpower, insured employees, industrial stoppages and unemployment.

POPULATION AND VITAL STATISTICS

including population by region and age distribution and births, marriages and deaths registered.

SOCIAL SERVICES

including expenditure on social services, services provided by National Health Service and education.

FINANCE

including banking and savings.

MISCELLANEOUS

including meteorological data, index of retail prices, etc.

Standing orders will be accepted
and copies supplied as published
